

Rheumatology e-learning *program for nurses*

The Rheumatology e-learning program for nurses is an educational program which aims to enhance the management of rheumatoid arthritis clinical care. This course, consisting of seven Modules, was developed by Roche Products Pty Limited and is endorsed by the Rheumatology Health Professionals Association (RHPA) and Royal College of Nursing, Australia (RCNA). Continuing Nurse Education (CNE) points are awarded on completion of each Module.

We are pleased to announce the complete launch of all seven Modules for the course. Collectively, completion of Modules 1–7 of the Rheumatology e-learning program for nurses allows you to earn a total of 38 Continuing Nurse Education (CNE) points that are endorsed by the Royal College of Nursing, Australia.

RCNA CNE points awarded per Module

Module 1: Introduction to immunity and rheumatoid arthritis (5 CNE points)

Module 2: Pathophysiology of rheumatic diseases (9.5 CNE points)

Module 3: Diagnosis and clinical investigations of rheumatoid arthritis (5 CNE points)

Module 4: Assessing and monitoring disease severity (3 CNE points)

Module 5: Management of rheumatoid arthritis (9.5 CNE points)

Module 6: Complications of rheumatic disease (3 CNE points)

Module 7: Psychological aspects of rheumatology (3 CNE points)
